Aesthetic Services

Aesthetic services start with a complimentary Visia® skin analysis and products evaluation. Our licensed aesthetician has twelve years advanced training and experience working for doctors in the Portland area. We will discuss your skin care regimen, to address your concerns and to suggest products and services best suited to your skin type.

Visia® Skin Analysis

An individualized program based on specific results with Visia® imaging system will help us to determine the most effective treatments for your goals.

Photo Rejuvenation

Intense pulsed light IPL is a treatment that uses gentle pulses of light to treat undesirable pigment and vessels. IPL can be used on most skin types to even out discolorations, and improve your skin's tone. This can be performed on most areas including the face and neck, chest, shoulders and hands. IPL treatments are performed by our laser technician.

Conditions treated with Intense Pulse Light include:

Sun damage	Broken blood vessels
Age spots	Rosacea
Freckles	Angiomas
Acne scars	Red birthmarks
